Description

Canon EOS R50 - High Resolution 24.2MP sensor

High resolution 24.2MP sensor

The APS-C sized sensor provides brilliant image quality and control over depth of field. Fine tune a professional look.

Canon EOS R50 - Dual Pixel CMOS Auto Focus II

Focuses faster than you

Dual Pixel CMOS Auto Focus II coupled with the powerful DIGIC X processor delivers swift subject detection and tracking.

Canon EOS R50 - Rapid continuous shooting

Rapid continuous shooting

Capture more unmissable moments at 12fps³. Switch up to 15fps when using silent electronic shutter⁴. The choice is yours.

Canon EOS R50 - UHD 4K 30p

UHD 4K 30p video

Discover a world of detail in motion, with oversampling from 6K.

STANDOUT CREATIVITY ON THE GO

Compact, portable design delivers your passion to the people with a large 24.2MP APS-C sized sensor – wherever curiosity leads you.

SEAMLESS CONNECTIVITY

Break boundaries, not your flow. Transfer media files for instant sharing, using the Camera Connect app, while always-on Bluetooth® and Wi-Fi connectivity enable easy remote shooting.

Canon EOS R50 - Camera Connect app

Everything just flows

Transfer with Camera Connect app that fits into your phone's workflow. Download images and videos, transfer images as you shoot. Sorted.

Tap to start. Tap to stop.

When you're in frame, you need remote camera control. Connect your phone and use it to change settings, compose your image, shoot – and record.
