Description

MASTERY OF STILLs & MOTION

Be creative without compromise. The EOS R6 Mark II's breakneck speed, class-leading performance and professional filmmaking features let you master your craft – however you like to shoot.

Capturing perfect moments in time

Capture fleeting moments at up to 40fps with sensational image quality, even in near-darkness. AI-based, deep-learning AF locks on to fast-moving subjects wherever they are in the frame.

Filmmaking without compromise

Full-width oversampled 4K 60p footage looks simply superb. Intuitive features – such as intelligent AF and a powerful Image Stabilizer – make professional results easy to achieve.

AF THAT ANTICIPATES YOUR NEXT MOVE

Our next generation of deep-learning AI autofocus delivers an even more powerful performance – 80% faster than the original EOS R6. The EOS R6 Mark II recognises and tracks more subjects with greater speed, reliability and precision than ever.

EXPLOSIVE SPEED ALWAYS READY

Capturing that decisive moment has never been easier. The EOS R6 Mark II shoots at up to 40fps with its electronic shutter and 12 fps mechanically. In the 30fps RAW Burst mode⁹, Pre-release capture lets you freeze moments that happened up to 0.5 sec before you pressed the button.
