

Billingham 35 Rucksack

A fantastically versatile rucksack for camera gear or everyday use. Ergonomically designed shoulder straps help with weight distribution when travelling, hiking or walking. Convert the rucksack from a camera bag to a casual bag in seconds by removing the padded insert. Made in England with 3-layer waterproof fabric and real leather.

Description

The flexible Padded Insert gives your equipment protection on all sides. Like the bag itself it is flexible front-to-back to allow it to fit slightly bigger gear than its dimensions suggest. ?

2x vertical dividers and 1x horizontal flap divider are included and can be attached anywhere inside with Velcro®. ?

The Padded Insert can be removed to turn the bag from a camera bag to a casual backpack in seconds with the unbuttoning of a pop-clip.

Most DSLRs with a small-to-medium lens attached (e.g. Canon 5D, Nikon D850 without battery grip). Plus 2 to 4 lenses (tall enough for a 70-200mm not attached to the camera).

Almost any mirrorless camera (e.g. Fujifilm XT-4, Sony A7IV, Canon R6, Nikon Z7) with small to medium lens attached. Plus 1-3 lenses.

Two rangefinder cameras (e.g. Leica M10 & Leica M6) with almost any lens attached. With room left for extra lenses.

Some medium format cameras such as the Hasselblad 500CM with 80mm attached, Fujifilm GFX-50S with small to medium lens attached, Hasselblad H6D with small lens attached etc. Plus room for extra lenses.

Almost any TLR camera with room to spare.

Small foldable drones such as Mavid Air 2 or Mavic Mini 2 with space to spare.
