Description

Creative everyday

Use the lens' 24-70mm field-of-view to pack in loads of extra detail and drama rich with colour and contrast and discover a new way of capturing action in a more dynamic way.

Landscapes and architecture

Get down low for exciting new angles and enjoy 5-stop image stabilisation to capture detail in total confidence even when light levels drop.

Travel and reportage

Thanks to a compact size, exceptional L-series build quality and a fast maximum aperture you can be sure that this lens will tell your story with detail and clarity, whatever the situation.

Catch every detail

Put your personal touch on a story thanks to a fast F2.8 aperture and super sharp optics that will keep you ahead of the competition.

Never miss the moment

Enjoy rapid, accurate focusing thanks to a Nano USM motor that ensures instant and silent AF with exceptional smoothness, perfect for video as well as stills.

Portraits that connect

Take your portraits to higher standards thanks to three glass moulded aspherical and three UD lens elements, advanced optical coatings and a 9-blade aperture.

A lens with no limits

The build quality redefines L-series quality while weather-sealing and fluorine coatings on the front and rear elements to guard against waterdrops and dust..
