Description

Uncompromising Design

New Design, Better Results

Foldable and lightweight, OM 5 was designed to fit in the palm of your hand. That means you can easily take it along for any adventure. And for the first time, we've included a built-in extension rod, letting you include more friends in a selfie or capture footage from unique new angles.

OM 5 makes no compromises when it comes to quality, and that includes its flexible, highly durable metal joints for a premium fit and finish.

A precision-crafted 215mm extension rod extends smoothly and uniformly, providing easier adjustments and more creative options when shooting.

Shoot Like a Pro

ShotGuides automatically recognizes your environment and recommends helpful shooting tips and creative templates. From recording to editing, this advanced new feature lets even first-time users capture stunning results.
