Description

Harness the Freedom of Wireless

The Wireless ME utilises RØDE's state-of-the-art Series IV 2.4 GHz digital transmission with 128-bit encryption to deliver incredibly stable wireless audio at a range of over 100m. Simply connect the receiver to your camera, smartphone or computer, attach the transmitter to you or your talent and hit record to capture pristine audio for your content – hands-free, no wires!

Instantly Elevate Your Camera or Phone Audio

Connect your Wireless ME directly to a camera with its analog 3.5mm output, or plug it into your iPhone or Android smartphone via USB to instantly elevate your content with incredible audio. You can even use the MagClip GO* to attach the receiver directly to your magnet-compatible phone.

Get Recording in Seconds

With the Wireless ME, you can be recording pristine audio in seconds. The transmitter and receiver are automatically paired out of the box, and with in-built microphones, convenient clips for attaching to clothing or your camera, and all necessary cables included, you can start creating right away.

Perfect Audio, Every Time

The Wireless ME features broadcast-grade omnidirectional microphones for capturing high-quality sound for your videos. It also features our groundbreaking GainAssist technology to make capturing crystal-clear audio easier than ever before. This utilises intelligent algorithms in the Wireless ME's audio processor that automatically control your audio levels to ensure they are perfectly balanced and to prevent your audio from clipping.

Wireless You and Wireless ME

The Wireless ME is the first wireless microphone to feature microphones built into both the transmitter and receiver, allowing you to capture audio from in front of and behind the camera – ideal for recording everything from two-way interviews to voice overs for video content.

Pro Audio, Pocket-sized

Its convenient in-built clip design allows it to be attached to clothing and mounted onto your camera with ease, no extra gear required. The ultimate grab-and-go microphone.
